

Renewable Energy Skills Wind Industry Training

CIT is an exclusive provider of Global Wind Organisation (GWO) certified training in the ACT and surrounding regional New South Wales. Our state-of-the-art high risk training facilities in conjunction with our Renewable Energy Centre of Excellence positions CIT as a national leader in wind safety training, upholding the GWO mission to support injury-free working environments in the wind industry.

Located at CIT Bruce, our purpose-built high risk training facilities offer the ideal setting for wind safety training. Students can undertake interactive and hands-on workshops, with industry relevant scenarios to apply in practical assessments.

Our trainers possess a collective of over 100 years of high risk and wind safety training experience, offering in-depth practical experience and knowledge in both technical and safety operations within the renewables industry.

Industry Endorsed Training - Global Wind Organisation (Basic Technical Training BTT)

This training provides basic safety awareness in the fields of mechanical, electrical and hydraulic operations associated with wind turbines and wind power generation.

Subject Name	Duration	Cost
Basic Hydraulic Global Wind organisation (GWO)	9 hours	\$420
Basic Mechanical Global Wind organisation (GWO)	13 hours	\$600
Basic Electrical Global Wind organisation (GWO)	10 hours	\$480

Industry Endorsed Training - Global Wind Organisation (Basic Safety Training BST)

This training provides basic safety awareness in the fields of first aid, manual handling, working at heights and fire awareness associated with wind turbines and wind power generation.

Subject Name	Duration	Cost
Working at Heights - Global Wind Organisation (GWO)	16 hours	\$725
Basic Fire Awareness - Global Wind Organisation (GWO)	4 hours	\$160
Basic First Aid - Global Wind Organisation (GWO)	16 hours	\$255
Basic Manual Handling - Global Wind Organisation (GWO)	4 hours	\$160

* In addition, a Service and Amenities fee of \$40 will be payable each semester.

New students undertaking basic technical modules will be required for four days. Students undertaking basic safety modules will be required for five days.

Location

Training is hosted at our high risk training facilities located at **CIT Bruce**.
